

Moment of Silence in Honor of Nancy J. Cormier

Before we proceed with our meeting today, we would like to take a moment to honor the memory of a remarkable educator and beloved member of our community, Nancy Cormier, who passed away on September 14th at the age of 73 after a courageous battle with cancer.

Nancy was not only a devoted wife, loving mother, and cherished grandmother, but she was also an inspiring teacher who dedicated her life to shaping young minds. Born in Newport, Rhode Island, and a proud graduate of Rogers High School, she later pursued her dream of teaching at Bridgewater State University. Her passion for education led her to Plymouth South Middle School, where she touched the lives of countless students and colleagues.

Nancy's dedication to her students and her commitment to education will be remembered and cherished by all who had the privilege of knowing her.

As we take this moment of silence, let us reflect on the impact Nancy had on our community and honor her memory.

[Pause for a moment of silence]
