INTENT

In response to the advertised open position on the Plymouth School Committee, I see this as an opportunity to serve my community in one of its most important roles; that of educating its children. With numerous years of experience in this field, I believe my involvement would make a valuable addition to the Plymouth School District.

Elected to the Stillwater (NJ) Board of Education in 1991, I served a total of 12 years in service to Pre-K to 6th grade elementary school, a 136 square mile JR/SR high school district, and a county wide educational services commission, educating our most vulnerable students.

I would consider it an honor to serve out this unexpired term and run for a new term in the spring of 2025. I look forward to participating in the candidate forum on Monday, January 6th, 2025

SELECTED ACHIEVEMENTS
